## ***CANDIDATE FOR***

## ***LEICHHARDT***

Elida understands that our region needs a strong voice for our community, who fights for secure jobs and the best education and health services for our region. She won't stand by while Scott Morrison and Warren Entsch cut jobs from our local university and funding from our schools, hospitals and Indigenous housing. Elida knows we have a high youth unemployment rate and that only a Labor government will invest in apprenticeships and training.

While Scott Morrison and Warren Entsch have prioritised tax cuts for the top end of town, Elida has hit the ground running and is fighting for more road funding such as extending the Bruce Highway in Cairns to improve access to the airport and remove trucks from suburban streets.

She understands that workers need their penalty rates, which have been cut by the Morrison Government. Creating good, secure local jobs in our region is Elida's top priority
