“The Emerging Leader Program is something that has been on my bucket list for a few years now and it definitely did not disappoint! This is like no other leadership program I have been exposed to – and it was exactly what I was looking for!

There is no other program where you have the opportunity to immerse yourself in some of our region’s top industry sectors; where you are exposed to some of the top leaders of these sectors; and where you can ask as many questions as you can – where no question is off the table!

As a group of people who have completely different backgrounds and careers, it’s incredible how quickly we found common ground. The common ground to learn from each other, to support each other with different challenges we were experiencing, and to genuinely see each other succeed. The genuine connections we have formed are invaluable.

The program is an excellent fit for anyone looking to broaden their horizons, learn new things, and be part of a community that genuinely cheers for each other's success. It's been a humbling and transformative journey, and I wholeheartedly recommend to those ready to embrace growth and shared achievements!

A massive thank you to the Cairns Chamber of Commerce, for your commitment to investing in our emerging leaders of today and tomorrow and enabling professional and personal development across our region.”
